

Nagaraju Poralla

AI Engineer & Full-Stack Developer

India

nagarajuporalla13@gmail.com · +91 9908425164

nagas.dev · LinkedIn · GitHub

PROFILE

AI engineer and full-stack developer focused on AI agents, workflow automation, machine-learning solutions, and reliable web products. Experienced in building practical systems for recruitment, voice workflows, document processing, and customer interactions.

SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL, HTML, CSS

Web & Cloud: React, Next.js, Node.js, Flask, FastAPI, Supabase, Cloud Run

AI & Data: AI Agents, Gemini API, NLP, Deep Learning, TensorFlow, scikit-learn, Power BI

Tools: n8n, Git, GitHub, Docker, MySQL, PostgreSQL, Inngest

EXPERIENCE

Founding Engineer — AI Agents & R&D · Cypherbit Private Limited

Aug 2025 – Present · Nalgonda, Telangana

- Build AI-agent workflows including recruitment automation and invoice-processing systems using Gemini, n8n, Google Workspace tools, and structured data outputs.
- Contribute to R&D for agentic workflows, language-model integrations, and product-ready full-stack experiences.

Web Developer Intern · TruPricer (Pure In Fresh Foods Pvt Ltd)

Feb 2025 – Feb 2026 · Remote

- Managed DNS, domains, and SSL; built responsive SEO-conscious websites with HTML, CSS, JavaScript, and PHP.

Technical Support Intern · Prasanta Communications

Oct 2024 – Jan 2025 · Hyderabad, India

- Delivered internal features using JavaScript, Astro, and AI-enabled development tools.
